

COMMUNIQUE

LAUNCH OF **TITAN AERONAVAL**

Villefranche-sur-Saône, 28/09/2012

Titan Aviation is expanding its activities in marine applications under the brand Titan Aeronaval.

With over 60 years of experience in the field of civil and military refueling, Titan Aviation is the international specialist in refueling equipment with more than 8,000 systems designed and manufactured for customers worldwide.

The company exports more than 80 percent of its products globally and has a skilled team of technicians for international training and equipment maintenance.

A WIDE RANGE OF EQUIPMENT AND SERVICES

With **Titan Aeronaval**, the company now offers design and manufacturing of refuelling equipment for all types of marine applications:

- Vehicles and fixed or mobile fuel farms for the refueling of: ships, drones, fighters, jumbo jets, helicopters, heavy and light tactical vehicles, tanks, ...
- Lube trucks
- Firefighting vehicles and equipment
- Associated services: maintenance, in-class and practical training, expertise and technical support, spare parts, ...

CUSTOMIZED SOLUTIONS

Our team has developed a highly skilled expertise in its field, and masters the design and manufacturing of its equipment. We are used to working with custom specifications and can offer you tailor-made solutions that meet international standards.
